Maximum Marks	2 Marks

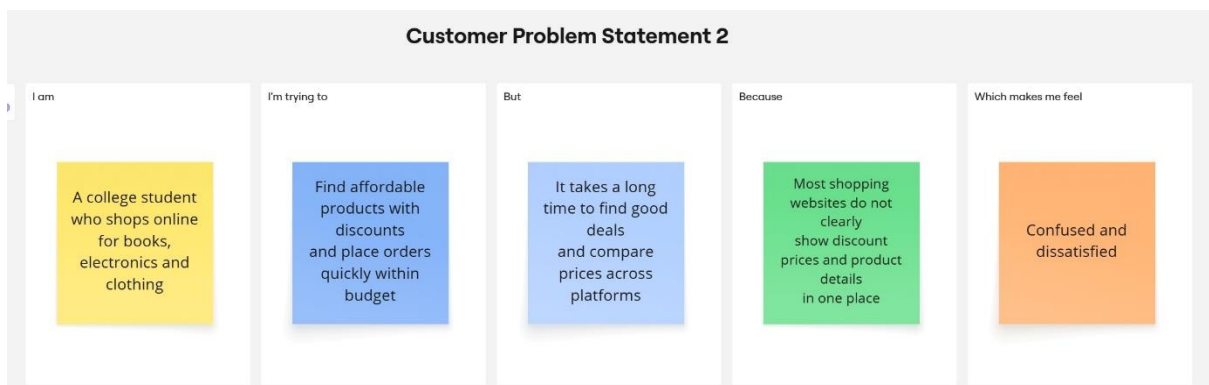

Customer Problem Statement:

The Customer Problem Statement template was used to identify and understand the challenges faced by two different types of target customers of ShopEZ. For PS-1, a busy working professional who shops online regularly was identified. They are trying to quickly find and purchase products online from home, but most platforms are complicated and slow due to unnecessary steps and poor user interfaces, which makes them feel frustrated and overwhelmed. For PS-2, a college student who shops online for books, electronics and clothing was identified. They are trying to find affordable products with discounts and place orders quickly within budget, but most platforms do not clearly show discount prices and product details in one place, which makes them feel confused and dissatisfied. ShopEZ was designed to solve both these problems by providing a clean, simple and secure shopping experience with clear discount pricing, easy product search and a smooth checkout process all in one platform.

Problem Statement 1:

Problem Statement 2:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A busy working professional who shops online regularly	Quickly find and purchase products online from home	It takes a long time because platforms are complicated	Websites are not user friendly and have too many steps	Frustrated
PS-2	A college student who shops online for books, electronics and clothing	Find affordable products with discounts and place orders quickly	It takes a long time to find good deals and compare prices	Most platforms do not clearly show discount prices and details	Confused and dissatisfied
