Empathy Map Canvas for ShopEZ:

For ShopEZ, the empathy map was created for an everyday online shopper who wants to find and purchase products quickly and safely. The customer feels frustrated with complicated checkout processes and anxious about payment security, but hopes for a fast shopping experience with good deals and reliable order tracking. Based on these insights, ShopEZ was designed with a clean and simple interface, secure JWT authentication, clear discount pricing, easy cart management and real time order status tracking to ensure a smooth and trustworthy shopping experience

Empathy Map (Detailed Analysis)

WHO are we empathizing with?

Person: An everyday online shopper who buys products from home

Situation: Looking for a simple platform to browse and order products online

Role: A customer who searches, adds to cart and places orders on ShopEZ

GOAL

To find and purchase products online quickly, safely and at the best price

To shop online safely and receive products on time without any issues

What do they THINK and FEEL?

PAINS (Fears, Frustrations, Anxieties)

Worried about product quality when shopping online

Frustrated with complicated and lengthy checkout process

Anxious about payment security and personal data theft

GAINS (Wants, Needs, Hopes, Dreams)

Wants a fast and simple shopping experience

Hopes to find good deals and discounts on products

Needs reliable and real time order tracking after purchase

What do they HEAR?

Others say: Online shopping is more convenient than visiting physical stores

Friends say: Some platforms offer better deals and discounts than others

Colleagues say: Certain shopping websites have hidden charges at checkout

Second-hand: Many people face delays in delivery and poor order tracking

What do they SEE?

Multiple shopping platforms with confusing and cluttered interfaces

Products with unclear pricing and unexpected hidden charges

Other people shopping easily and quickly on their phones

Advertisements for deals and discount offers on social media

What do they SAY?

I wish online shopping was simpler and faster

I want to see discount prices clearly before buying

I just want to order easily and receive regular updates

What do they DO?

Searches and compares products across multiple platforms

Reads customer reviews carefully before making a purchase

Tracks orders regularly after placing them

What other thoughts influence their behavior?

Positive reviews from other customers increase their trust in the platform

Bad experiences on other platforms make them hesitant to try new ones

What do they need to DO?

Find products easily, place orders quickly and track deliveries without complications

Choose a single trusted and secure shopping platform for all their online purchases
